

Air1 and K-LOVE are the only radio stations allowed to be played in my home, in the car, etc. This is the only radio my children listen to and they love it. It is positive, uplifting, and encouraging.

My daughter was able to share the gospel with her friends as a result of the music they listen to on Air1. Some of her friends had never been exposed to GOD...but through Air1 they heard positive thought provoking music that made them question their own lives and what they believed.

I feel that if Air1 was to go away, this would be a detriment to the community.
